

Prideletics is an LGBTQ+ athletic clothing company that celebrates diversity and inclusion year-round.

Athletes and allies wear our high-quality products with pride.

We are a minority and LGBTQ+ owned small business based out of Minnesota. Launched in 2017, we have established ourselves as a brand that consumers go to for our designs, comfortable clothing and the sense of community.

The Partnership Process

Other Information

- **Our products are high-quality and created individually for each order.** This allows us to quickly expand our product line from more than one singular shirt to include various colors, designs or even product types (like hats or hoodies). This also eliminates the need for partners to manage inventory.
- **We bring that same individual focus to our terms by offering flexibility.** Many partners have built communities by simply offering merchandise in an easily accessible platform. Some organizations raised money to support a cause. Others arranged evergreen products so nobody misses out.
- **It is all about meeting your organization's needs.**
